Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants amendment filed August 30, 2004 has been received and entered.

Claims 3 and 6-9 have been canceled and new claims 17-19 have been added.

Consequently claims 1-2, 4-5, 10, 12, and 17-19 are pending in the instant application.

All grounds of rejection in the Office Action mailed February 23, 2004 are withdrawn in view of Applicants amendments and arguments.

The following new grounds of rejection are applied to the claims:

Claim Rejections - 35 USC § 112

1. Claims 1-2, 4-5, 10, 12 and 17-19 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. This is a new matter rejection.

The amended claims all recite or depend upon claims with the newly filed recitation of "a nucleic acid which hybridizes under high stringency conditions to the complement of the nucleic acid of SEQ ID NO: 1 or 3." Applicants have specifically pointed towards page 23 as providing support for this amendment. (Page 5, lines 18-20 of response). However, page 23 of the specification does not recite "high stringency" at

Art Unit: 1645

all, nor is any mention made of hybridization conditions. Accordingly, Applicant is required to demonstrate clear support (page and line number of the specification) for the newly added limitations or cancel the newly filed limitations.

2. Claims 1 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claims are vague and indefinite in the recitation of "high stringency." One of skill in the art would be unable to determine the metes and bounds of the claimed invention. Stringency is determined by the physical and chemical conditions under which the hybridization takes place as well as subsequent washing steps. However, without some guidance as to the physical and chemical conditions which are deemed "highly stringent" as opposed to conditions considered low-stringent, one of skill in the art would be unable to determine the metes and bounds of the claimed invention.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
